Problem Statement

Develop an income tax calculator that computes the income tax that is owed for an income amount. When a user enters an income amount and clicks the Calculate button, this application displays the income tax owed.

Income Tax Slabs:

Income Amount	Income Tax Percentage
Less than or equal to 2,50,000	No Tax
Greater than 2,50,000 and less than or equal to 5,00,000	5%
Greater than 5,00,000 and less than or equal to 10,00,000	20%
Greater than 10,00,000	30%

Steps:

- Accept the income amount entered by the user
- Prompt the user if it is an invalid input
- Refer to the income tax slabs given above to calculate the income tax
